Keano Aquino

Software Engineer

Ambitious Computer Science senior at California State University with a solid foundation in data structures, algorithms, SQL, and testing. Experienced in developing backend solutions and optimizing database systems, with hands-on experience in full-stack development using Python, JavaScript, and modern web technologies. Built practical applications including an algorithm visualization website and a hotel reservation desktop app, showcasing strong skills in UI/UX design, database management, and testing methodologies.

Projects

Algorithm Visualizer Website

HTML, CSS, JavaScript

A website that helps visualize sorting algorithms through animated arrays.

Contribution:

- Implemented algorithm animation sequences for bubble, quick, merge, and insertion sort
- Created a dynamicly sized array visualization
- Designed and implemented UI and UX

Hotel Reservation Desktop App

Python, SQLite, Tkinter

A full stack hotel reservation desktop app for staff/manager use.

Contribution:

- Implemented business logic for the hotel using Python and SQL
- Unit Testing and Integration Testing

Education

Los Angeles Pierce College, 2022-2024

Bachelor's of Science in Computer Science

GPA: 3.4

California State University, 2024-Present

Bachelor's of Science in Computer Science

GPA: 3.2
